

VII International Meeting on Cancer Induced Bone Disease

29 JUNE – 2 JULY 2008

HERIOT WATT UNIVERSITY • EDINBURGH • SCOTLAND

REGISTRATION BROCHURE

About CABS

www.cancerandbonesociety.org

Purpose

As an international society, CABS is dedicated to advancing knowledge and disseminating research results relevant to the effects of cancers and cancer treatments on bone and mineral homeostasis.

Access

Providing an international forum to present and discuss current basic and clinical science in the rapidly advancing field of skeletal complications of cancer, CABS meetings are premier scientific events. As such, they attract a rich pool of medical professionals dedicated to utilizing this venue to advance current and developing therapies. The diverse group of medical professionals who attend CABS meetings includes:

- Basic Scientists
- Oncologists
- Clinical Researchers
- Endocrinologists
- Industry Representatives
- Professions Allied to Medicine

Results

The International Meeting on Cancer Induced Bone Disease provides ample educational opportunities. The following is a sampling of topics that are covered at the CABS meeting:

- Osteoporosis in Cancer Survivors
- Stem Cell Niche and Bone Metastases
- Breast Cancer
- Prostate Cancer
- Myeloma
- Bisphosphonates
- Radiopharmaceuticals
- Mechanisms of Bone Pain
- Imaging
- Radiation Therapy
- Novel Therapies for Bone Disease
- Bone Markers
- Bone Biology
- Cell Signalling
- Clinical Trials
- Animal Models

An invitation to attend

Dear Colleagues,

On behalf of the Cancer and Bone Society, we would like to invite you to the VII Cancer Induced Bone Disease Meeting. The venue is the historic city of Edinburgh, Scotland and the meeting will be held in first class conference facilities on the Herriot-Watt campus.

We are delighted to have such a distinguished international faculty spanning bone and cancer biology, translational science and clinical research. There will be opportunities to present original data both in oral sessions and by poster as well as clinical sessions to discuss complex multidisciplinary management of cancer induced bone diseases.

Do come and enjoy a top quality scientific programme, great opportunities to meet colleagues from all over the world, a variety of social events and an opportunity to visit one of the premier cities in the world. Additionally at this time of year Scotland is exceptionally beautiful, the evenings are long and the weather usually very pleasant.

Sincerely,

ROBERT COLEMAN

President

Conference Chair

GREGORY MUNDY

General Information

LOCATION

Situated amidst beautiful landscaped parklands six miles from the centre of Scotland's vibrant capital city, the venue for VII International Meeting on Cancer Induced Bone Disease is the James Watt Centre, Heriot-Watt University, Edinburgh (www.eccscotland.com).

The campus is very compact and delegates will have only a short walk to their on site accommodation.

REGISTRATION FEES

The Cancer and Bone Society presents this 4-day meeting at a very reasonable fee to delegates and it has worked hard to ensure that the meeting continues to provide value for money. The registration fee includes full access to each day of the meeting, all catering and refreshments including a prestigious conference dinner, the commercial exhibition, welcome reception and all meeting materials. The registration fee does not include accommodation, however we have been able to negotiate very economical rates for your accommodation bookings.

Please find below registration rates before 31 March 2008, a surcharge of £50 will apply after this date.

Standard Delegate Rate	£330
Students / Trainees up to 28yrs**	£200
Guests (non-healthcare professionals)	£70

***Students / Trainees will be considered a person under the age of 28 in the process of studying for a pre-doctoral or doctoral degree, postdoctoral fellow and member of paramedical professions. Participants applying for student rates should provide a supporting letter confirming their date of birth and current position.*

SOCIAL EVENTS

All registration fees above include the cost of a conference dinner ticket except the Guest price. If you require extra dinner tickets for any guests they will be charged at:

Conference Dinner (1st July 2008) - £60

The price of the ticket includes a welcome reception and a three course meal at the Prestonfield.

ACCOMMODATION

The Cancer and Bone Society has reserved accommodation at the Heriot Watt University for the delegates of this conference.

You must book accommodation online at www.virtuosold.com and click on event/exhibitions.

Please note that the Cancer and Bone Society is not responsible for accommodation bookings.

CALL FOR ABSTRACTS

Delegates who would like to showcase their work at the meeting by oral or poster presentation are invited to submit an abstract for consideration by the Scientific Program Committee. All abstracts must be received by Friday 15 February 2008.

Up to thirty travel grants will be awarded to the best quality abstracts submitted by young investigators.

ABSTRACT CATEGORIES

- Basic Mechanism
- Therapeutic Approaches
- Clinical Studies

HOW TO SUBMIT YOUR ABSTRACT

All abstracts must be submitted electronically at www.cancerandbonesociety.org. Abstracts must be submitted in English and are limited to 300 words including tables. Detailed instructions for abstract submissions are provided on the Web site. Please read all instructions carefully before preparing your abstract. Failure to observe these guidelines may result in disqualification.

Deadline for submitting abstracts:

Friday, 15 February, 2008

If you have any difficulty using the online form, please contact the Conference Organisers:

BioScientifica
Tel: +44 (0)1454 642 240
Fax: +44 (0)1454 642 222
E-mail: kate.openshaw@bioscientifca.com

ACCEPTANCE OF ABSTRACTS

Abstracts submitted to the CABS VII International Meeting on Cancer Induced Bone Disease are peer-reviewed by the Scientific Program Committee. Submitting authors will be notified whether or not their abstract has been accepted in early March 2008.

Abstracts will be published in *Cancer Treatment Reviews*.

Schedule of Events

Sunday 29th June

15.00 -16.30	CABS Board Meeting
16.55	Welcome and opening of the meeting
17.00- 18.30	Plenary Session
19.00 - 21.00	Exhibition, Posters and Opening Reception

Monday 30th June

08.00 - 8.50	Educational Workshop
09.00 - 10.40	Session: The Metastatic Problem
10.40 - 11.10	Break
11.10 - 12.00	Session: Tumour Cell Biology and Bone Metastasis
12.00 - 13.00	Abstract presentations
13.10 - 14.00	Meet the Professor Case Discussions (Working Lunch)
14.10 - 15.45	Session: Prediction of bone disease and metastasis
15.45-16.15	Break
16.15 - 17.45	Satellite symposium I <i>KINDLY SUPPORTED BY NOVARTIS ONCOLOGY</i>
18.00 - 21.00	Poster viewing buffet and discussions

Tuesday 1st July

08.30 - 09.25	Educational Session
09.30 - 10.45	Session: Bone Biology and the Microenvironment
10.45 - 11.10	Break
11.10 - 12.00	Session: Bone Biology in Solid Tumours
12.00 - 13.00	Abstract presentations
13.10 - 14.00	Meet the Professor Case Discussions (Working Lunch)
14.15 -15.45	Satellite Symposium II <i>KINDLY SUPPORTED BY AMGEN</i>
15.45 - 16.15	Break
16.15 - 17.05	Session: Functional Imaging of the Skeleton
19.00 -24.00	Conference Dinner, Prestonfield

Wednesday 2nd July

09.00 - 10.40	Session: Skeletal Therapeutics
10.40 - 11.10	Break
11.10 - 12.40	Satellite Symposium III
12.50 -13.50	Meet the Professor Case Discussions (Working Lunch)
14.00 -14.30	CABS Annual General Meeting
14.30 - 16.10	Session: Controversies
16.10	Closing remarks

Detailed Programme

Sunday 29th June

15.00 - 16.30

CABS BOARD MEETING

16.55

WELCOME AND OPENING OF THE MEETING

17.00 - 18.30

PLENARY SESSION

17:00 - 17:30

Preparing the soil - the bone marrow niche

Gregory Mundy, Nashville, USA

17:30 - 18:00

Tumour-bone cell interactions in malignancy

Theresa Guise, Charlottesville, USA

18:00 - 18:30

Developments in bone targeted treatment of cancer

David Roodman, Pittsburgh, USA

19.00 - 21.00

OPENING RECEPTION

Monday 30th June

8.00 - 8.50

EDUCATIONAL WORKSHOP

Animal models - how do they help and when do they mislead?

Philippe Clezardin, Lyon, France

Gabri van der Pluijm, Leiden, Netherlands

9.00 - 10.40

The Metastatic Problem

09:00 - 09:25

Mathematical modelling to evaluate cancer cell invasion

Alexander Anderson, Dundee, UK

09:25 - 09:50

Proteolytic enzymes

Gillian Murphy, Cambridge, UK

09:50 - 10:15

Adhesion molecules

Toshi Yoneda, Osaka, Japan

10:15 - 10:40

PTHrP and non-collagenous bone proteins

Matthew Gillespie, Melbourne, Australia

10.40 - 11.10

BREAK

11.10 - 12.00

Tumour cell biology and bone metastasis

11:10 - 11:35

Prostate cancer stem cells and the metastatic process

Norman Maitland, York, UK

11:35 - 12:00

Wnt signalling in malignancy

Gregory Clines, Charlottesville, USA

12.00 - 13.00

ABSTRACT PRESENTATIONS

12:00 - 12:10

OC1

12:10 - 12:20

OC2

12:20 - 12:30

OC3

12:30 - 12:40

OC4

12:40 - 12:50

OC5

12:50 - 13:00

OC6

13.10 - 14.00

MEET THE PROFESSOR CASE DISCUSSIONS

WORKING LUNCH

Prostate cancer

Oncologist

Nicholas James, Birmingham, UK

Bone specialist

Eugene McCloskey, Sheffield, UK

14.10 - 15.45

Prediction of bone disease and metastasis

14:10 - 14:35

Genetic predisposition to bone diseases

Stuart Ralston, Edinburgh, UK

14:35 - 15:00

Genetic signatures and prediction of bone metastasis

Jan Klijn, Rotterdam, Holland

15:00 - 15:25

Circulating tumour cells and tumour DNA

Jeffrey Smerage, Michigan, USA

15.45-16.15

BREAK

16.15 - 17.45

SATELLITE SYMPOSIUM I

KINDLY SUPPORTED BY NOVARTIS ONCOLOGY

18.00 - 21.00

POSTER VIEWING, BUFFET AND DISCUSSION

Tuesday 1st July

8.30 - 9.25

EDUCATIONAL SESSION

Clinical trial design - How to establish a new treatment as a new standard of care

Judith Bliss - Institute for Cancer Research, London

9.30 - 10.45

Bone biology and the microenvironment

09:30 - 09:55

Normal bone cell function and regulation

Graham Russell, Oxford, UK

09:55 - 10:20

RANK ligand signalling system in malignancy

Peter Croucher, Sheffield, UK

10:20 - 10:45

Osteoblast inactivation in myeloma

Toshio Matsumoto, Tokushima, Japan

10.45 - 11.10

BREAK

11.10 - 12.00

Bone biology in solid tumours

11:10 - 11:35

Osteoblast inactivation in solid tumours

Marco Cecchini, Bern, Switzerland

11:35 - 12:00

Bone cell- tumour cell interactions in prostate cancer

Eva Corey, Seattle, USA

12.00 - 13.00

ABSTRACT PRESENTATIONS

12:00 - 12:10

OC7

12:10 - 12:20

OC8

12:20 - 12:30

OC9

12:30 - 12:40

OC10

12:40 - 12:50

OC11

12:50 - 13:00

OC12

13.10 - 14.00

MEET THE PROFESSOR CASE DISCUSSIONS

WORKING LUNCH

Breast cancer

Radiation oncologist

David Dodwell, Leeds, UK

Bone specialist

Jean-Jacques Body, Brussels, Belgium (TBC)

Orthopaedic surgeon

Roger Tillman, Birmingham, UK (TBC)

14.15 - 15.45

SATELLITE SYMPOSIUM II

KINDLY SUPPORTED BY AMGEN

15.45 - 16.15

BREAK

16.15 - 17.05

Functional imaging of the skeleton

16:15 - 16:40

Developments in preclinical imaging

Clemens Loewik, Leiden, Holland

16:40 - 17:05

PET scanning of the skeleton

Ignac Fogelman, London, UK

19.00 onwards

CONFERENCE DINNER, PRESTONFIELD

Wednesday 2nd July

9.00 - 10.40

Skeletal therapeutics

09:00 - 09:25

Structure-activity relationships and drug design

Michael Rogers, Aberdeen, UK

09:25 - 09:50

Use of Biomarkers to evaluate therapy

Patrick Garnero, Lyon, France

09:50 - 10:15

Bone targeted therapy

Robert Coleman, Sheffield, UK

10:15 - 10:40

Radioisotope treatment of bone metastases

Oyvind Bruland, Oslo, Norway

10.40 - 11.10

BREAK

11.10 - 12.40

SATELLITE SYMPOSIUM III

12.50 - 13.50

MEET THE PROFESSOR CASE DISCUSSIONS

WORKING LUNCH

Multiple myeloma

Haematologist

John Ashcroft, Leeds, UK

Bone specialist

Eugene McCloskey, Sheffield, UK

14.00 - 14.30

CABS ANNUAL GENERAL MEETING

14.30 - 16.10

Controversies

14:30 - 14:55

What can the patients tell us about the effectiveness of treatment - the importance of patient reported outcomes

Lesley Fallowfield, Brighton, UK

14:55 - 15:20

Haematopoietic cell and growth factor - tumour cell interactions

Katherine Weillbacher, St Louis, USA

15:20 - 15:45

Is the antitumour efficacy of bisphosphonates clinically relevant?

Ingunn Holen, Sheffield, UK

15:45 - 16:10

Protecting the normal skeleton - who, when and why

Matthew Smith, Boston, USA, (TBC)

16.10

CLOSING REMARKS

General Meeting Information

Continuing Medical Education Credit

This conference will be allocated an appropriate number of continuing medical education (CPD) credits by the Royal College of Physicians UK.

Travel Grants

The Cancer and Bone Society is pleased to announce the availability of travel grants for young investigators. Graduate students and post-doctoral fellows who will present work themselves (either as a poster or oral presentation) are eligible for support in the amount of: £200 for UK applicants, £300 for European applicants and £450 for the rest of the world. These travel grants are in addition to free delegate registration for the conference.

Travel grants are awarded as a component of scientific abstract review and are considered on the basis of scientific merit.

Individuals wishing to be considered for a travel grant should check the appropriate box in the online abstract form and fulfill the following requirements:

- The applicant should either hold an MD and/or PhD or be a current graduate student, clinical trainee or medical student in an academic program.
- Post-doctoral applicants should be within 10 years of beginning their first post-doctoral laboratory position.

We will confirm eligibility from department heads prior to awarding travel grants.

Sponsorship and Exhibition Information

Interested in supporting the CABS VII International Meeting on Cancer Induced Bone Disease? There are many new and exciting opportunities for sponsorship and exhibiting at this year's meeting. For more information, please visit our website at www.cancerandbonesociety.org and view the 2008 Exhibitor Prospectus for a complete listing of ways that your organisation can get involved. Alternatively contact kate.openshaw@bioscientifica.com.

Edinburgh Overview

Scotland's capital captivates many people at first sight, with Edinburgh Castle looming from the crags of an ancient volcano, and the Georgian and Victorian architecture forming a skyline that looks locked in the past.

Banking

Most banks are open from Monday to Friday between 0900 and 1700. Some city centre offices are also open on Saturday mornings. Automatic teller machines (ATMs) are widely available throughout the area and most are linked to Cirrus, Maestro or Plus International money systems. Visitors are advised to check with their local bank prior to travelling.

Bureaux de change

Bureaux de change can be found at the airports, railway stations, most city centre banks, Tourist Information Centres and travel outlets.

Climate

From April to September, temperatures are mild and compare favourably with other European cities; annual rainfall is the same as Frankfurt, New York and Rome.

Credit cards

Most hotels, restaurants and shops in the UK accept major credit cards such as Visa, Mastercard, American Express and Diners Club.

Currency

UK currency is the pound sterling (£) and is made up of 100 pence (p). Several Scottish banks issue their own notes in denominations of £5, £10, £20, £50 and £100. These are also legal tender elsewhere in the UK. Likewise, English and Northern Irish banknotes are legal tender in Scotland. Coins come in denominations of 1p, 2p, 5p, 10p, 20p, 50p, £1 and £2.

Customs

For information regarding customs and duty free allowances, please see the HM Revenue and Customs web site (www.hmrc.gov.uk/home.htm).

Electricity

The standard voltage in the UK is 240V AC, 50Hz. Any non-UK appliance will require an adapter; North American appliances will need a transformer and an adapter. Plugs have three-square pins and adapters are widely available.

Embassies and consulates

Foreign embassies can assist travellers with lost or stolen passports and provide assistance in emergencies. For information on European Union embassies in the UK see www.cec.org.uk. The American Consulate General in Edinburgh can be contacted on +44 (0)131-556 8315

Emergency services

For police, fire brigade, ambulance and, in some areas, mountain rescue or coastguard, dial 999.

Health care

EU citizens are entitled to free or reduced cost medical treatment at National Health Service hospitals. With the exception of accident and emergency treatment, all non-EU members will be charged for medical treatment and must have adequate health insurance when travelling.

Smoking

There is a ban on smoking in all enclosed public places throughout Scotland (since April 2006).

Telephone

Most public telephones accept coins (10p, 20p, 50p, £1), with a minimum connection charge of 20p. An increasing number of kiosks also accept credit cards and offer email and internet access.

Time

Between late March and late October, British Summer Time applies in the whole of the UK. This is 1 hour ahead of Greenwich Mean Time. Most public transport timetables use the 24-hour clock.

Transportation

BY AIR

Edinburgh International Airport is located just 8 miles west of the city centre and is connected to the city by fast and frequent bus service. Edinburgh has a wide choice of direct air links from Europe, North America and the rest of UK.

BY CAR

Edinburgh has excellent road connection to other parts of Scotland and the rest of the UK. The city is directly linked to London by the M1, to Glasgow by the M8 and from Glasgow to England and Wales by the M74 - the A74 and M6 further to the south toward Manchester. Approximate driving time from Glasgow - 1 hour, from Manchester - 4 hours 15 min, from London - 7 hours 30 min.

BY TRAIN

Edinburgh has two railway stations - Haymarket and Waverley. Edinburgh's main station is Waverley Station. It is located in the city centre and has direct or connecting trains to all part of Scotland and the rest of the UK. There are particularly frequent services to London and to Glasgow. For London it's a real alternative to air travel as the 4-hour centre-to-centre rail trip takes just about an hour longer than flying in actual travelling time.

BY COACH

National Express operates regular coach services to Edinburgh from both London and Manchester. Scottish Citylink offers services from within Scotland.

Public transport

There is no tram system within the city and Edinburgh commuters rely on the frequent bus service. Lothian Buses and First Edinburgh provide bus service within the city and to outlying districts. The bus service works from 6.00 until 24.00 after which the night bus service comes into operation.

Taxis

Taxis in Edinburgh are mainly black hackney cabs. All the taxis are licensed and have meters. Edinburgh's taxi companies include the City Cabs and Central Radio Taxis. Rates are rather expensive and a tip of 10% is expected.

Travel insurance

It is strongly recommended that visitors to the UK arrange travel insurance to cover the loss of possessions and money as well as health and dental treatment.

Vaccinations

No vaccinations are required prior to visiting the UK.

Value-added tax (VAT)

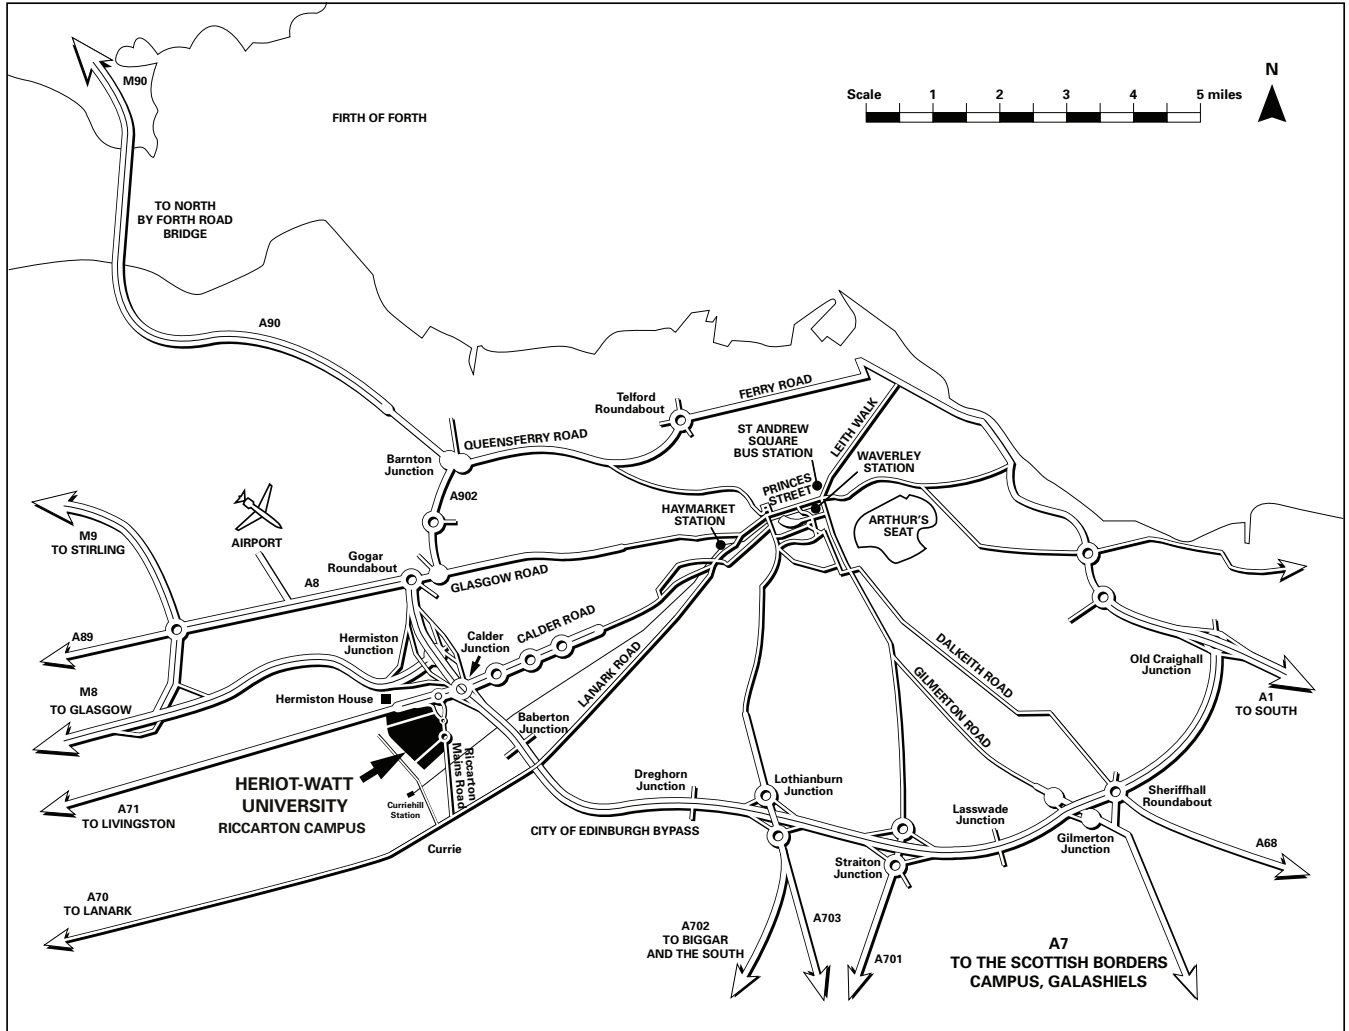

All purchases in Britain, with the exception of unprepared food and books, are subject to VAT, which increases the cost of an item by 17.5%. This is generally already included in the requested price. Visitors from non-EU countries can claim a refund of VAT from selected shops on goods that are to be taken out of the country, under the Retail Export Scheme.

Visas

EU members may travel and work in the UK without a visa. Citizens from the USA, Canada, South Africa, Australia or New Zealand do not require a visa to visit the UK but are prohibited from working. Citizens from other countries require a visa, which can be obtained from their nearest British Consular office. For additional information on UK immigration and visa requirements visit the Foreign and Commonwealth Office web site (www.fco.gov.uk).

Map

Sight seeing

<http://www.visitscotland.com>

Edinburgh is a beautiful and historic city with plenty of activities to choose from if you intend to stay on after the conference.

Principally, there are 2 distinct areas to Edinburgh. The Old Town which is a lively area with many specialty shops, restaurants and businesses and secondly, the Georgian New Town which is often considered to be a masterpiece of city planning, and is a UNESCO World Heritage Site. Although still referred to as the New Town, it was built in stages between 1765 and around 1850, and retains much of the original neo-classical period architecture.

Edinburgh Castle

Edinburgh Castle dominates the city like no other castle in Scotland or the British Isles. With nearly one thousand years of history it sits proudly on the top of the famous Edinburgh rock.

Palace of Holyroodhouse

Founded as a monastery in 1128, the Palace of Holyroodhouse in Edinburgh is The Queen's official residence in Scotland.

National Galleries of Scotland

Housed in five galleries across Edinburgh, The National Galleries of Scotland look after one of the world's finest collections of Western art ranging from the Middle Ages to the present day.

Ghost Tours

The Edinburgh ghost tours are among the most popular walking tours of the city. Edinburgh's history spans hundreds of years and the overcrowded Old Town, home of the common and rich alike, became the perfect setting for some of the richest gruesome folklore in Scotland.

The Royal Yacht Britannia

The Royal Yacht Britannia has played host to some of the most famous people in the world, but, above all, she was home to Her Majesty The Queen and the Royal Family.

Arthur's Seat

Arthur's Seat is the main peak of the group of hills which form most of Holyrood Park, a remarkably wild piece of highland landscape in the centre of the city of Edinburgh, about a mile to the east of Edinburgh Castle. The hill rises above the city to a height of 251 m (823 feet), provides excellent panoramic views of the city, is quite easy to climb, and is a popular walk.

10 FACTS ABOUT EDINBURGH

1. Edinburgh's population is over 450,000 but that figure more than doubles to over a million during the famous arts festivals in August.
2. Each year, Edinburgh hosts the biggest New Year street party in the world, known simply as Edinburgh's Hogmanay. Over 100,000 revellers enjoy wonderful music in Princes Street Gardens and, across the city at midnight, dazzling firework displays on all seven of the hills surrounding the city.
3. JK Rowling, author of the famous Harry Potter books, wrote her first novel 'Harry Potter and the Philosopher's Stone' in a café in Edinburgh.
4. Sean Connery grew up in Edinburgh and, as a boy, delivered milk to Fettes College, where the fictitious character of James Bond was educated, as was Tony Blair, Britain's former Prime Minister (1997-2007).
5. Edinburgh Castle, which dominates the city skyline, is the most popular visitor attraction in Scotland, with well over one million visitors each year.
6. The word 'caddie' originated from the men who were hired to carry pails of water up the tenement flats in the Old Town of Edinburgh. Golf caddies are thought to stem from Mary Queen of Scots who was educated in France and a keen golfer. Apparently, she christened the students who carried her clubs 'cadets' and, given the French pronunciation of the word, some people believe that this is how the modern meaning of the term developed.
7. Alexander Graham Bell, the inventor of the telephone, was born in Edinburgh. Like his father, Bell was an educator of the deaf. He went first to Canada and then to the United States, where in 1873 he was appointed a professor in the School of Oratory, Boston University.
8. Princes Street Gardens, situated in the city centre, boasts the world's oldest floral clock and the Royal Botanic Garden Edinburgh contains Britain's tallest Palm House in The Glasshouse Experience.
9. The Palace of Holyroodhouse is HM The Queen's official residence in Scotland. It contains historic apartments where Mary, Queen of Scots lived. Mary's death mask, meanwhile, is housed within Lennoxlove House, home of the Duke of Hamilton, just outside Edinburgh.
10. The Old and New Towns of Edinburgh have been designated a UNESCO World Heritage Site, along with cities such as Bath, Rome and Venice

VII International Meeting on Cancer Induced Bone Disease

29 JUNE – 2 JULY 2008 • HERIOT WATT UNIVERSITY • EDINBURGH • SCOTLAND

Important Dates:

**Call for Abstracts Deadline
15 February 2008**

**Discounted Registration Deadline
31 March 2008**
