# ABOUT BIOSCIENTIFICA

Bioscientifica collaborates with learned societies worldwide to provide high-quality publishing, events and association management to the biomedical community.

We are owned by the Society for Endocrinology and invest all our profits in our partner societies, helping to advance biomedical education, research and practice.

## OUR JOURNALS

Bioscientifica's publishing portfolio includes three subscription journals, and nine open-access titles that are essential reading for both researchers and clinicians.

### *Journal of Endocrinology*

2024 IMPACT FACTOR: **3.9**

### *Journal of Molecular Endocrinology*

2024 IMPACT FACTOR: **3.8**

### *Endocrine-Related Cancer*

2024 IMPACT FACTOR: **4.6**

# 3-JOURNAL PACKAGE

Bioscientifica offers a 3-journal package, designed to provide your users with more content while saving your library money.

The package provides access to all of the Society for Endocrinology's journals published by Bioscientifica.

*Journal of Endocrinology* IMPACT FACTOR: 3.9

*Journal of Molecular Endocrinology* IMPACT FACTOR: 3.8

*Endocrine-Related Cancer* IMPACT FACTOR: 4.6

If your library would like to upgrade its subscriptions to include all three journals, please get in touch. Bioscientifica offers the 3-journal package at a bespoke price covering single-site, multi-site and corporate customers.

Email [sales@bioscientifica.com](mailto:sales@bioscientifica.com) for a tailored package price for your institution.

# Journal of Endocrinology

For over 80 years, *Journal of Endocrinology* has been publishing international research of the highest quality on endocrine physiology and metabolism.

The flagship journal of the Society for Endocrinology

This publication is widely read by researchers and clinicians working in all fields of endocrinology, including diabetes, neuroendocrinology, thyroid and bone.

# Endocrine-Related Cancer

Endocrine-Related Cancer is the leading international journal for research on hormone-related cancers.

The flagship cancer journal of the Society for Endocrinology

It is highly relevant to research scientists and clinicians working on cancers of the breast, prostate, pituitary, testes, ovary, and neuroendocrine system, as well as hormone-dependent cancers elsewhere.

## READ AND PUBLISH

Bioscientifica is committed to making the research published in its journals accessible to the widest possible audience. We've introduced a 'Read and Publish' agreement as an alternative to the traditional subscription model.

Institutions who sign up to the agreement get unlimited access to all Bioscientifica journals, plus free open-access publishing for corresponding authors in these titles.

### WHY CHOOSE A READ AND PUBLISH AGREEMENT?

- Transparent and cost-neutral pricing.
- Easy to administer: one annual fee covers both usage and publishing.
- Helps your institution to meet funding requirements, and to make open access the default publishing choice.

### FIND OUT MORE

To find out how a Read and Publish deal could benefit your institution, email [sales@bioscientifica.com](mailto:sales@bioscientifica.com)

## OPEN ACCESS IN HYBRID JOURNALS

For authors who choose to publish their article open access in a subscription or hybrid journal, Bioscientifica offers a 50% discount on open-access publishing if the library subscribes to that journal.

For more information, email [sales@bioscientifica.com](mailto:sales@bioscientifica.com)

## REASONS TO CHOOSE BIOSCIENTIFICA AS AN AUTHOR

Publishing in a Bioscientifica journal gives your work the reach and recognition it deserves. As an author you can expect:

**Rigorous peer review** – We provide fast and thorough peer review by our international network of expert referees, supported by our world-class editorial boards.

**High discoverability** – Our journals are indexed in all the key relevant databases at the earliest opportunity, including PubMed, Web of Science, Scopus, Google Scholar, HINARI, SCImago and many more, giving your work the visibility it deserves.

**Exciting special collections** – Our collections bring together some of the most influential and timely research, driving discoverability to increase your article's impact.

**A quality editorial experience from a trusted, society-owned publisher** – By publishing with Bioscientifica, you're funding progression in science. We redistribute all profits made from publishing back to the Society for Endocrinology, our parent charity, as well as our partner societies, to advance biomedical research and practice.

For more information, email [sales@bioscientifica.com](mailto:sales@bioscientifica.com)

## YOUR SUBSCRIPTION ENABLES OUR PARTNERS TO:

- Advance medical research through training events, where professionals share the latest clinical knowledge and experience.
- Produce treatment guidelines that enable health professionals to make more informed decisions about patient care.
- Distribute grants, awards and prizes that reward excellence at all medical and scientific career stages.
- Engage with the public through education events, interactive workshops, and free online resources, which help people to make informed decisions about their health.

**Our publishing  
partners include:**

**EFORT**  
open reviews

European Society  
of **Endocrinology**

★ European  
★ **THYROID**  
★ Association

Society for  
Reproduction  
and Fertility
